Potential or Expected Press Inquiries:

- **Management and Disposal of CCRs from AES Puerto Rico:** Governor Alejandro García Padilla did not introduce draft legislation in the legislative extraordinary session regarding the management of CCRs from AES. AES Puerto Rico and EC Waste publicly declared that they interpret that the recent Puerto Rico's Supreme Court's decision does not affect the disposal of CCRs in the Peñuelas Valley Landfill. The Supreme Court's decision validated the Municipal Ordinance prohibiting the use of CCRs for construction and deposition within the jurisdiction of the Municipality of Peñuelas. The groups opposing the disposal of CCRs in Peñuelas established a civil disobedience camp in the entrance to both landfills in Peñuelas, EC Waste and Ecosystems. Potential and expected media requests might come from this topic.
